

## Mathematics success application:

MathematicA Smart Learning is the number one solution for all O & A Level related numerical problems. Termed 'The Examination Manual' by Mathematics scholars, the mobile and windows apps are designed in a way that answers problems in a holistic approach, gearing you up for more than the problem in front of you. The end product of our services are analytical scholars with a hands on approach to problem solving from grassroots. MathematicA Smart Learning offers up-to date syllabuses, short concepts, question papers and detailed - answered past exam papers from 2000 up to date.

## Downloading the application

First of all you have to download the application from [www.mymathematica.com](http://www.mymathematica.com) or googleplay . The application is user friendly and operates on android version 4.02 and above.

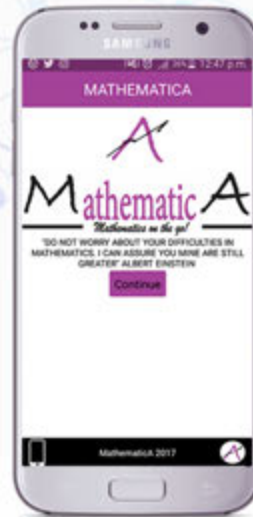

## Getting started

MathematicA is an android mathematics library application which comes with mathematical concepts, exam papers and answers and syllabuses. The application is currently offering O-Level mathematics, with the A Level upgrade coming soon. For more information go to [www.mymathematica.com](http://www.mymathematica.com).

Kindly note that both our android and windows apps accept all payment platforms available in Zimbabwe, including but not limited to Ecocash, Telecash, One Wallet, Zim Switch, V-payments, RTGS from any bank. Furthermore, someone can pay for you using any one of the payment platforms listed above.

## Continue

Once you open your Mathematica application you are greeted by a Continue page. Press the **continue icon** and unlock the mathematica treasure.

## Welcome

For new users you choose the **register** icon, this will direct you to the registration process.

For existing users choose the **sign in** option to continue enjoying the Mathematica benefits.

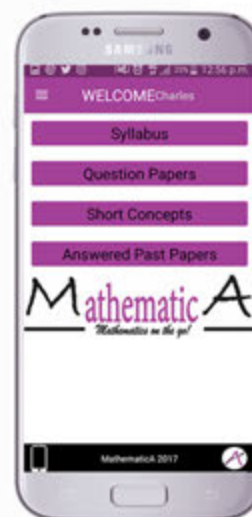

## Log in

Press **log in**. Please note that if you are registered the application is intelligent enough to remember the mobile number you entered upon registration.

## Welcome user

After pressing the **Log in** icon you are welcomed by to the list of services that the application provides, choose as per your mathematical need
